

## Garrett Ancestors That Were Vikings

This appendix presents one line of the Garrett ancestors from the time that a man named, Yngvi left Turkey before 200 AD and went to the Scandinavian countries. These ancestors were basically Viking pagans for 29 generations until they settled in France.

Generation 1 starts with my generation. So, the first one below is 63 generations back.

I basically copied this information from Ancestry.com. The source of the information is shown. To me, the most interesting thing about this lineage is how they died.
